Date		Game	Amount
2023-10-25	Wed	vs Dallas Mavericks	2086
2023-10-27	FRI	vs Houston Rockets	2481
2023-11-5	SUN	vs Toronto Raptors	4200
2023-11-10	FRI	vs Minnesota Timberwolves	2582
2023-11-12	SUN	vs Miami Heat	5814

Part 02

Pricing Topics

- Pricing across time on games and seats

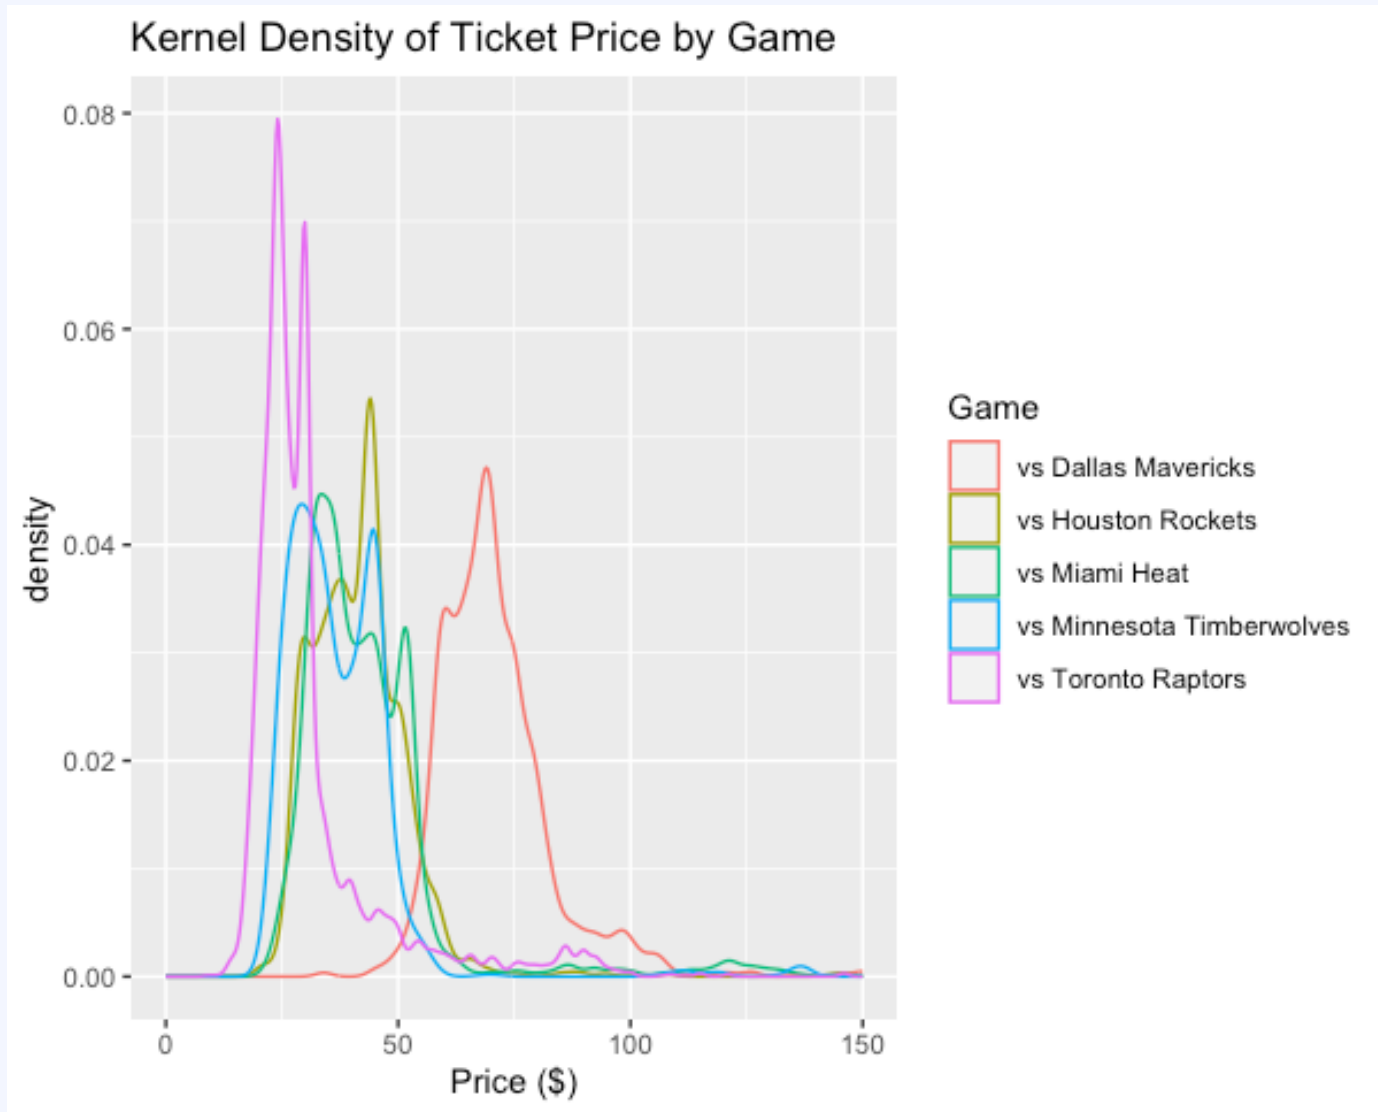

Part 03

Patterns

Pattens

✂ Dallas Mavericks is the worst sale but the average price of ticket and the are highest among these 5 teams.

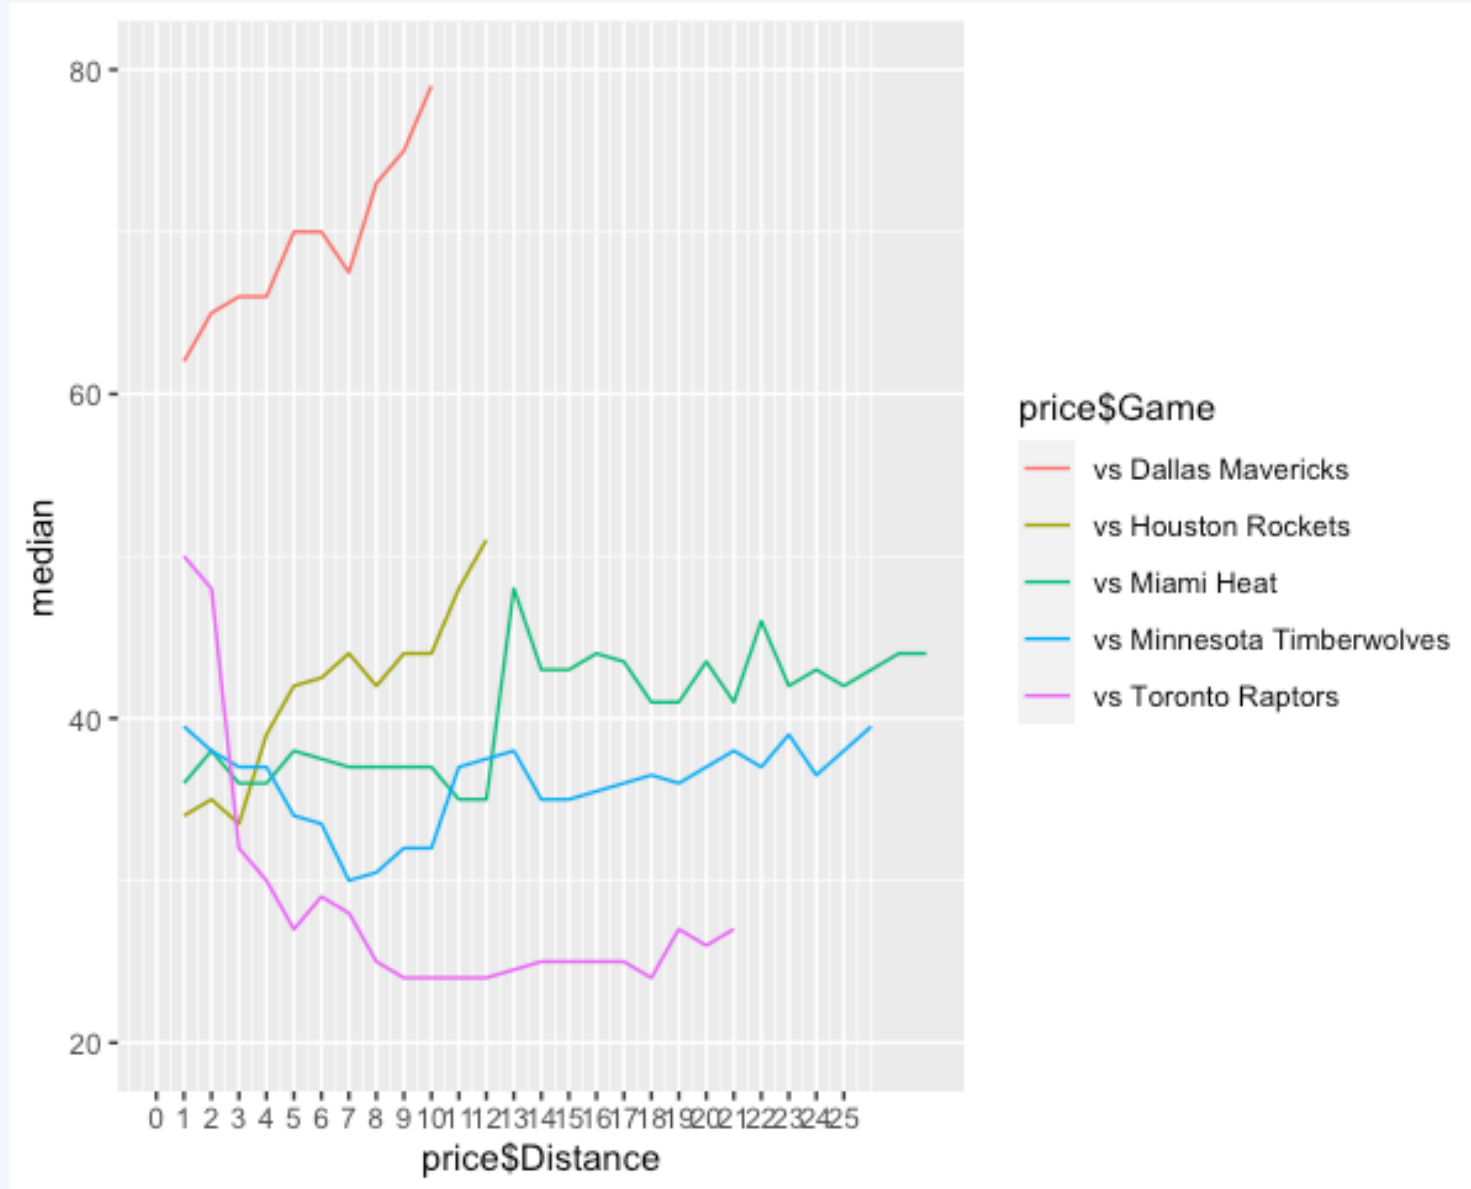

✂ Toronto Raptors is the second high sale of 5 teams, but the mean price is the lowest.

✂ The rest of 3 teams have overlap among the mean prices.

3-28	30, 300~4010	38	97%	856.35
100-199	71~2772	111/283	39.2%	401.8
200-233	9-1053	248/16828	1.4%	188.1

Part 04

Strategy

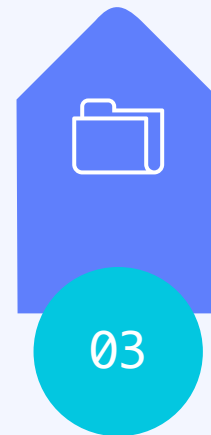

01

Time Strategy

- Implement dynamic discounts for tickets aren't selling well closer to game day.

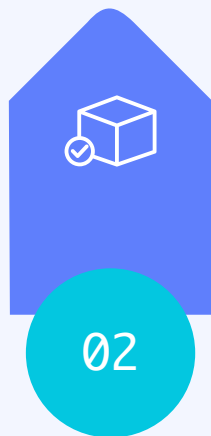

03

Discrimination Strategy

- For most popular teams, raise the price.
- Control the Scalping which is harmful to our team profit.

Time Strategy

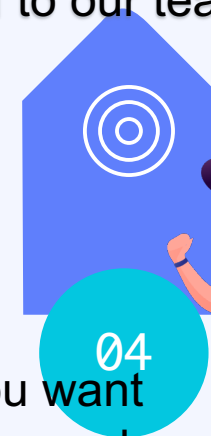

- Raise the average price for games in weekend.
- Promote a Sale for games in work day.
- Set a bundle for week game and weekend game.

02

Section Strategy

- Decrease the price of good sections when the day close to game day.
eg: A program that shows "Do you want to upgrade the seats by just adding only \$30? "

04

Critical Thinking

- Lack of information of cost.
- Mechanism of resales from platforms?
